MATHS WEEK / YEARS 1–6

Make a maths board game!

Design it at home. Play it with your class!

How to make your game

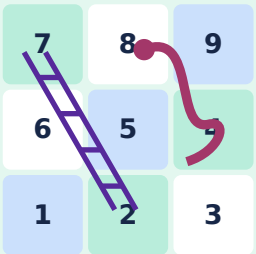

1. **Draw your board**
   Start with plain paper. Draw a path or grid and decorate it.

2. **Add a maths twist**
   Try counting, shapes, number bonds or times tables.

3. **Write the rules and try it out**
   Explain how to play and win. Test your game at home.

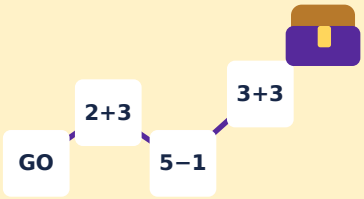

Board game ideas to make your own

Snakes and Ladders

Solve a sum to climb a ladder.

Treasure Trail

Solve number clues to reach the treasure.

Noughts and Crosses

X	2+2	O
5−2	O	1+4
3+3	X	6−2

Solve a sum to place your X or O.

Bring it in on Thursday 19 November

We'll spend the morning playing games with our classmates.

Remember your rules and any dice, counters or cards you need.
