Dear Parent/Guardian,

Your son/daughter has been invited to take part in a series of webinars offered by ExpertEdLive, an evening online programme offering the opportunity to connect with expertise from across the UK and beyond. **'Midweek Maths'** aims to stretch, and challenge interested pupils in **Years 5&6** and to encourage conversations about the subject between children and their parents.

Parents are strongly encouraged to attend together with their child.

The series will be hosted live events. Each week will feature intriguing problems that encourage logical thinking and discussion of different approaches with input from specialist guests and the audience at home. Participants will also be able to submit their own questions to be answered by our expert guests and attempt takeaway questions with prizes awarded to the best answers.

Sessions will be delivered as Zoom webinars on the following dates:

Midweek Maths – 4 Wednesday evenings beginning 11th November 7.00-7.45pm

We would be delighted to have your interested son/daughter, along with a parent, to join us for these sessions. Please visit our website to register https://expertedlive.org/family/ (places are limited) or click here.

On behalf of ExpertEdLive,

Gordon Montgomery

Founder
