

# Sharing a Festive Feast

1. Find  $\frac{1}{2}$  of the gingerbread biscuits.

$$\frac{1}{2} \text{ of } 4 = \boxed{\phantom{00}}$$

5. Find  $\frac{1}{3}$  of the candy canes.

$$\frac{1}{3} \text{ of } 6 = \boxed{\phantom{00}}$$

2. Find  $\frac{1}{2}$  of the tangerines.

$$\frac{1}{2} \text{ of } 6 = \boxed{\phantom{00}}$$

6. Find  $\frac{1}{3}$  of the cabbage rolls.

$$\frac{1}{3} \text{ of } 9 = \boxed{\phantom{00}}$$

3. Find  $\frac{1}{4}$  of the mince pies.

$$\frac{1}{4} \text{ of } 8 = \boxed{\phantom{00}}$$

7. Find  $\frac{2}{4}$  of the cookies.

$$\frac{2}{4} \text{ of } 8 = \boxed{\phantom{00}}$$

4. Find  $\frac{1}{4}$  of the peladillas.

$$\frac{1}{4} \text{ of } 12 = \boxed{\phantom{00}}$$

8. Find  $\frac{3}{4}$  of the crackers.

$$\frac{3}{4} \text{ of } 8 = \boxed{\phantom{00}}$$

# Sharing a Festive Feast Answers

1. Find  $\frac{1}{2}$  of the gingerbread biscuits.

$$\frac{1}{2} \text{ of } 4 = \boxed{2}$$

5. Find  $\frac{1}{3}$  of the candy canes.

$$\frac{1}{3} \text{ of } 6 = \boxed{2}$$

2. Find  $\frac{1}{2}$  of the tangerines.

$$\frac{1}{2} \text{ of } 6 = \boxed{3}$$

6. Find  $\frac{1}{3}$  of the cabbage rolls.

$$\frac{1}{3} \text{ of } 9 = \boxed{3}$$

3. Find  $\frac{1}{4}$  of the mince pies.

$$\frac{1}{4} \text{ of } 8 = \boxed{2}$$

7. Find  $\frac{2}{4}$  of the cookies.

$$\frac{2}{4} \text{ of } 8 = \boxed{4}$$

4. Find  $\frac{1}{4}$  of the peladillas.

$$\frac{1}{4} \text{ of } 12 = \boxed{3}$$

8. Find  $\frac{3}{4}$  of the crackers.

$$\frac{3}{4} \text{ of } 8 = \boxed{6}$$

1. Find  $\frac{1}{2}$  of the gingerbread biscuits.

$$\frac{1}{2} \text{ of } \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

5. Find  $\frac{1}{4}$  of the mince pies.

$$\frac{1}{4} \text{ of } \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

2. Find  $\frac{1}{3}$  of the candy canes.

$$\frac{1}{3} \text{ of } \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

6. Find  $\frac{2}{4}$  of the peladillas.

$$\frac{2}{4} \text{ of } \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

3. Find  $\frac{3}{4}$  of the tangerines.

$$\frac{3}{4} \text{ of } \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

7.

$$\frac{1}{2} \text{ of } \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

$$\frac{2}{4} \text{ of } \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

4. Orla has put  $\frac{1}{2}$  of the cookies on to a plate. Draw the other half.

How many cookies are there in total?

8.  $\frac{1}{4}$  of the crackers have been used.

How many crackers were there to begin with?

# Sharing a Festive Feast Answers

1. Find  $\frac{1}{2}$  of the gingerbread biscuits.

$$\frac{1}{2} \text{ of } 8 = 4$$

5. Find  $\frac{1}{4}$  of the mince pies.

$$\frac{1}{4} \text{ of } 12 = 3$$

2. Find  $\frac{1}{3}$  of the candy canes.

$$\frac{1}{3} \text{ of } 9 = 3$$

6. Find  $\frac{2}{4}$  of the peladillas.

$$\frac{2}{4} \text{ of } 16 = 8$$

3. Find  $\frac{3}{4}$  of the tangerines.

$$\frac{3}{4} \text{ of } 20 = 15$$

7.

$$\frac{1}{2} \text{ of } 12 = 6$$

$$\frac{2}{4} \text{ of } 12 = 6$$

4. Orla has put  $\frac{1}{2}$  of the cookies on to a plate. Draw the other half.

How many cookies are there in total? **8**

8.  $\frac{1}{4}$  of the crackers have been used.

How many crackers were there to begin with? **8**
