First Aid in School Policy

First Aid Policy (William Byrd Primary Academy)
Owned by: Sarah Roberts
Created: December 2020
Updated: May 2021
Ratified: June 2021
Review date: June 2022

It is essential to have in place adequate first aid provision and medical care for all pupils and school personnel. First Aid can save lives and prevent minor injuries becoming major ones. Under Health & Safety legislations employers have to ensure there are adequate and appropriate equipment and facilities for providing first aid in the workplace. This policy will be shared with all employees during their induction to ensure they are familiar with the school's first aid procedures.

Aims

- To provide adequate first aid provision and medical care for pupils and school personnel.
- To have in place qualified first aid personnel.
- To have in place adequate first aid equipment.
- To have in place excellent lines of communication with the emergency services and other external agencies, including our Health and Safety Advisor.

Legislation and Guidance

This policy is based on the Statutory Framework for the Early Years Foundation Stage, advice from the Department for Education on [first aid in schools](#) and [health and safety in schools](#), and the following legislation:

- [The Education \(Independent School Standards\) Regulations 2014](#), which require that suitable space is provided to cater for the medical and therapy needs of pupils
- [The Health and Safety \(First Aid\) Regulations 1981](#), which state that employers must provide adequate and appropriate equipment and facilities to enable first aid to be administered to employees, and qualified first aid personnel
- [The Management of Health and Safety at Work Regulations 1992](#), which require employers to make an assessment of the risks to the health and safety of their employees
- [The Management of Health and Safety at Work Regulations 1999](#), which require employers to carry out risk assessments, make arrangements to implement necessary measures, and arrange for appropriate information and training
- [The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations \(RIDDOR\) 2013](#), which state that some accidents must be reported to the Health and Safety Executive (HSE), and set out the timeframe for this and how long records of such accidents must be kept

Location of First Aid Equipment

- First aid Equipment, Asthma inhalers and Epipens are kept in the Welfare Room.
- Each classroom has its own green bag which contains Inhalers and Epipens. These bags are taken with the class to all P.E. lessons and the Daily Mile sessions.
- There are further First Aid boxes in the Early years building and Nursery.
- Ice Packs are located in the freezer in the Welfare Office, Early years building and Nursery. We also keep a stock of disposable ice packs.
- SMSAs take a supply of plasters, nonalcoholic wipes and gauze outside with them at lunch time and treat any minor grazes.
- Portable First Aid bags are taken on all school trips and educational visits. Each class takes a separate bag for their medication, such as Inhalers and Epipens.

1. Roles and Responsibilities

1.1 Welfare Officer

Melanie Castle-Mason mcastlemason@williambyrd.school

The school's appointed welfare assistant is responsible for:

- Taking charge and administering front-line care when someone is injured or ill

- Ensuring all first aid kits are fully equipped and replenishing the contents as needed
- Maintaining up to date and accurate medical files, including accident log, welfare plans, asthma and allergy plans and any other medical care plans
- Calling an ambulance or seeking other professional medical help when appropriate
- Contacting parents in the event of illness or accident and sending unwell or injured pupils home to recover, where necessary
- Reviewing periodically the accident reports across the school

1.2 First Aiders

(See list in appendix 1)

First aiders are trained and qualified to carry out the role and are responsible for:

- Acting as first responders to any incidents; they will assess the situation where there is an injured or ill person, and provide immediate and appropriate treatment
- Filling in a bump note or accident report on the same day, or as soon as is reasonably practical, after an incident if required and informing the relevant staff
- A list of all trained first aiders is prominently displayed around the school

1.3 The Head of School

Sarah Roberts sroberts@williambyrd.school

The Head of School is responsible for the implementation of this policy, including:

- Ensuring that an appropriate number of trained first aid personnel are present in the school at all times
- Ensuring all staff are aware of first aid procedures

Ensuring appropriate risk assessments are completed and appropriate measures are put in place

1.4 All other School Staff

All school staff are responsible for:

- Ensuring they follow first aid procedures
- Ensuring they know who the first aiders in school are
- Informing the head teacher or their manager of any specific health conditions or first aid needs
- Familiarising themselves of all children with medical conditions

1.5 The Multi Academy Trust

CEO: Tracey Hemming themming@mlp.org.uk

The Middlesex Learning Partnership Multi Academy Trust has ultimate responsibility for health and safety matters in the school, but delegates responsibility for the strategic management of such matters to the school and the Local Governing Body.

2. Procedures for First Aid

2.1 In-school procedures

- In the event of a minor injury the person on duty will deal with the incident and record the incident.
- In the event of a child having an accident or concerns about a child feeling unwell, a First Aider or Welfare Officer will check the child, and where appropriate, treat the child.
- Every time a child says they feel unwell their temperature will be checked.
- If there is any concern about a child the parents will be contacted as soon as possible, so that the child can be collected and taken home.

- Parents are contacted if there are any doubts over the health or welfare of a pupil.
- The school will call for an ambulance if they have concerns about an injury and the child's parents will also be contacted straight away. This information will always be given showing consideration for parental stress and anxiety.
- Any child with a bumped head needs to be sent to the Welfare Room to be written in the medical book and to be checked and monitored.

An ambulance will be called in the following cases:

- Any concerning head injuries or concussion
- Serious wounds which the school considers require immediate hospital treatment
- All suspected fractures
- Unconsciousness even for a few seconds
- Anaphylactic shock
- Choking
- Fitting or convulsions
- Severe bleeding
- Asthma attack
- Suspected heart attack
- Suspected stroke
- If a condition suddenly deteriorates or is considered to be life threatening

If a member of staff is asked to call the emergency services, they must be near the child to answer relevant questions regarding the child's condition:

- Advise the location of the school – full address and post code
- State what has happened
- The child's full name
- The child's date of birth
- Whether the casualty is breathing/conscious

If a pupil sustains a serious injury, they should not be moved.

All serious accidents should be reported to Head of School.

All relevant staff should familiarise themselves with the names, conditions and treatment of pupils who have specific medical needs such as allergies. Photos of the children and a brief summary of the condition can be accessed in the Welfare room, the Kitchen and in the child's classroom.

Once an ambulance has been called:

- The Head of School or other senior member of staff will be informed.
- A member of staff will wait at the entrance to open the gate and guide the paramedics and emergency vehicle into the school
- If the parents have not arrived at the school a member of the school staff will go with the child to hospital ensuring they have updated pupil information

2.1.2 Pupils who are unwell in school

Any pupil who is unwell cannot be left to rest in the welfare room. If a pupil becomes unwell, a parent should be contacted as soon as possible by the appointed person.

Anyone not well enough to be in school should be collected as soon as possible by a parent. Staff should ensure that a pupil who goes home ill is signed out at the school office.

2.1.3 Procedures for After School Clubs

After school clubs can be run by external companies or school staff. All coaches must be Pediatric first aid trained. Where appropriate any prescribed medication, Inhaler/Epipens, should be handed to the coach by when the child is brought to the club.

2.1.4 Procedures for Breakfast Club

At least two Breakfast Club staff are first aid trained. All in-school procedures detailed in section 2.1 will be followed

2.1.5 Procedures for Saturday or Holiday School

At least one first aider will be on site for Saturday or holiday school. All procedures detailed in section 2.1 will be followed.

2.2 Off-site procedures

2.2.1 Procedures for educational visits

- A minimum of one trained First Aider will always accompany any school trips
- A First Aid bag will be taken on all school trips
- Teachers should ensure they have asthma inhalers, epipens and all medication the children in their class may need
- Staff should take the designated school mobile phone or their own mobile phones on trips with the school telephone number programmed in
- A full risk assessment must be completed for all outings and educational visits

3. Record-keeping and reporting

3.1 First aid and accident record book

- A minor accident form is completed in the medical book if the injury needs only very minor first aid- a wipe, cold compress, plaster or ice pack for a short time. A note is sent home if there has been a slight head injury
- An accident form will be completed by the relevant member of staff on the same day or as soon as possible after a major incident resulting in an injury
- As much detail as possible should be supplied when reporting an accident.
- A copy of the accident report form will also be added to the pupil's educational record by the school administrative team.
- Records held in the first aid and accident book will be retained by the school for a minimum of 3 years, in accordance with regulation 25 of the Social Security (Claims and Payments) Regulations 1979, an accident form will be kept until the child is 21 years old.

3.2 Reporting to the HSE

The Head of School will keep a record of any accident which results in a reportable injury, disease, or dangerous occurrence as defined in the RIDDOR 2013 legislation (regulations 4, 5, 6 and 7).

The Head of School will report these to the Health and Safety Executive as soon as is reasonably practicable and in any event within 10 days of the incident.

Reportable injuries, diseases or dangerous occurrences include:

- Death
- Specified injuries, which are:

- Fractures, other than to fingers, thumbs and toes
- Amputations
- Any injury likely to lead to permanent loss of sight or reduction in sight
- Any crush injury to the head or torso causing damage to the brain or internal organs
- Serious burns (including scalding)
- Any scalping requiring hospital treatment
- Any loss of consciousness caused by head injury or asphyxia
- Any other injury arising from working in an enclosed space which leads to hypothermia or heat-induced illness, or requires resuscitation or admittance to hospital for more than 24 hours
- Injuries where an employee is away from work or unable to perform their normal work duties for more than 7 consecutive days (not including the day of the incident)
- Where an accident leads to someone being taken to hospital
- Near-miss events that do not result in an injury, but could have done. Examples of near-miss events relevant to schools include, but are not limited to:
 - The collapse or failure of load-bearing parts of lifts and lifting equipment
 - The accidental release of a biological agent likely to cause severe human illness
 - The accidental release or escape of any substance that may cause a serious injury or damage to health
 - An electrical short circuit or overload causing a fire or explosion

Information on how to make a RIDDOR report is available here:

[How to make a RIDDOR report, HSE](http://www.hse.gov.uk/riddor/report.htm)
<http://www.hse.gov.uk/riddor/report.htm>

3.3 Reporting to Ofsted and child protection agencies

The Head of School will notify Ofsted of any serious accident, illness or injury to, or death of, a pupil while in the school's care. This will happen as soon as is reasonably practicable, and no later than 14 days after the incident.

The Head of School or DSL will also notify MASH of any serious accident or injury to, or the death of, a pupil while in the school's care.

4. Personal Safety of pupils and staff

All treatment of wounds and accidents involving bodily fluids must be undertaken wearing gloves and protective equipment. This is for the protection of pupils and staff.

5. School admissions

- Parents are asked to notify the school of any medical information on the admission form.
- Before the child commences placement, this information should be passed onto the Head of School, Teacher, Welfare Assistant and SENDCo.
- If a child develops a medical condition once they are on roll, all staff must ensure this information is also passed to the Head of School, Teacher, Welfare Assistant and SENDCo and put on the child's school information file.
- Any training required to ensure the child's medical needs are fully met and understood will be organised by the Welfare Assistant via the School Nurse, treating hospital, parents or other external agencies as appropriate.

6. Training

- All school staff are able to undertake first aid training if they would like to.
- All first aiders must have completed a training course, and must hold a valid certificate of competence to show this. The school will keep a register of all trained first aiders, what training they have received and when this is valid until (see appendix 1).
- Staff are encouraged to renew their first aid training when it is no longer valid.
- At all times, at least 1 staff member will have a current paediatric first aid (PFA) certificate which meets the requirements set out in the Early Years Foundation Stage statutory framework and is updated at least every 3 years.

This policy is linked to the following school policies:

- Supporting pupils in school with medical conditions policy
- Asthma policy
- Children with health needs who cannot attend school policy
- Health and safety policy
- Risk assessments

Appendix 2

Covid-19 Addendum

During coronavirus: first aiders will follow Health and Safety Executive (HSE) guidance for [first aid during coronavirus](#). They will try to assist at a safe distance from the casualty as much as possible and minimise the time they share a breathing zone. Treating any casualty properly will be the first concern. Where it is necessary for first aid provision to be administered in close proximity, those administering it will pay particular attention to sanitation measures immediately afterwards including washing their hands.

During coronavirus: we will use our 'best endeavours' to ensure 1 person with a full PFA certificate accompanies children on outings when children aged 2 to 5 are present. If, after taking all possible steps in our power, we're still unable to secure a staff member with a full PFA certificate, we will include this in our written risk assessment and ensure someone with a current first aid at work or emergency PFA certification accompanies these children on the outing. Outings will only be undertaken if it is safe to do so. We will take account of any government advice in relation to educational visits during the coronavirus pandemic.

There will always be at least 1 first aider on school trips and visits.

During coronavirus: we will take account of any government advice in relation to educational visits during the coronavirus pandemic.
